Nearly 4,000 People From Winnipeg Visit Rat Portage.

THE RAT PORTAGE ROWING CLUB WIN ALL THE EVENTS ENCEPT.

The Caterers excursion from Winnipeg took place vesterday. Nearly L-000 people from the Prairie Cityamived on special trains during the morning. and in a short time were scattered over the town and on the various islands of the lake. The excursion trips on the various steamers attracted many, and they all seemed to enjoy the bracing air of the Lake of the Woods. Rat Portage has been favored several times by the Caterers in their selection of a place for their annual excursion, and no people are inade more welcome.

The regatta yesterday was a very succe stat affair. The breeze in the morning was too light so it was again necessary to call off the sailing taces. In the four-oared shell race the two crewswere Winnipeg Killam, Sprague Johnson and Ribey stroke, and Rat Portages, I. Waite, S. Griffly, T. Phillips and M. Beaudro stroke. Both crews caught well with Roff Portage slightly of the and and the bures were turned when Winnesez get off the course and to ded R . Portig abe 2 100 vands from the torn. The Rat Portage Lays agreed to start over from the briots, which was date. But Post to lead all the way till about two lengths from the finish when Winnipeg a might perspect a salela

ed with passengers and the number METHODISTS ON TUNNEL ISLAND of attractions kept the crowd pretty well scattered. Altogether the day could hardly have been more of a success in every respect and we feel certain that the Caterers' will carry hence a pleasant recollection of Rat Portage.

A New Producer.

M. Kyle, president of the Gold Panner Mining Vo., has for ashed us with the following statement regarding the first mill run at the Gold Panner mine and it confirms the predictions of the management:

The 10 stamp mill Yan 17 22-hour days during the month, treating 526 tous of ore. No selection was made, and the ore was fed to the crushers just about as it was brought up the shaft. Assays showed that the average value of the ore was \$8 per ton, which would give the gross value of the 326 tons treated \$2,608. Calculating on saving 85 per cent. by the free milling process only it would leave the total value obtainable \$2,216. A brick valued at \$900 was received at the head office of the company, but Mr. Smaille explains that \$300 more could have been taken from the plates if they had been scraped in the usual way. He, however, advised leaving the bullion there so as to facilitate the work of charging them. Another month's run of the mill will about firish the absorption part of the business and full-free milling vetuens are then promised by the manager.

The following table shows how the bullion was travelling during the tune Gold brick Gold in tailings. Left on plates and absorbed.

Two Hundred People Enjoyed Thenselves

on Langford's Lawn Tuesday Night.

It was a delightful evening to commence with, and everything harmonized. On the Sloping lawn at the residence of Crown Attorney Langford on Tunnel Island, about 2th pecwere scattered. The walk leading to the water sedge was brilliantly illumined by electricity in various colors, And while seeming fairles in pink and white must us flitted about. Hansen's orchestra discoursed soft music, the sweet strains of which were waited from one cliff to another. The calm, moonlit water in the bay in the immediate vicinity was dorted with causnes, which seemed to have a tenter by to get near to the seemds of music, and only would their recupents be aware of real life wher, the Ser. Aczyle made its appearance, carring the water with a sharp swish, which sectional tha comos in all directions.

Refreshments were served on the lawn bond soon arou, the arrography quilt, worked by the Lottes Ald of Zion church, was metioneered by Mr. Pearson, when Mr. J. A. M. Afkins bid 88.25 and kindly presented it to Rev. Mr. Mergan. The lake then assumed a brilliant appearance. To Charman busing manibodies sky of ets, pinwheels, torpedoes, etc., which reminded one of an Aldershot with of May. Then Mr. Aikens called upon Mosdames Yates, Whittaker and Neads to go upon the platition when Mrs. Neads on behalf of the W. M. S., and L.A.S., of Zion Mechadist church, 8 9001 presented to Mrs. Gec. The first heat of the lapstreak race was Geo. Killam, J.H. Elliott, Sprague G. F. Galf, of Winnipeg, against Swinford, M. Brown, H. Clark and F. R. Gollwin, of Rat Portage, , The Winnis peg boat was fouled by a pleasure party in a canoe. The Rat Portage crew slacked up a bit to allow the Winnipegs time to catch up. After the turn Rat Portage kept gaining and crossed the line a few lengths ahead, time 5:23. The Winnip gs de eided not to call for another race; but it is certain that they should have been given a clear course.

The second heat of the lapstreak race was between two Rat Portage rews, Toole, L. Johnson, Hooper land Emmons stroke, vs. I. Waite, S. Burton, W. Johnson, and Dr. Schnarr stroke: Schnarr won, time 4,40,

In the double scull Riley and Johnson of Winnipeg were defeated by Phillips and M. Beaudro of Rat Portage, time £55. The water was a little rough and the Winnipeg crew said they were not used to it. They went to the wrong buoy and, after turning kept losing all the way. Phillips and Beaudro winning by several lengths. This is quite a victory for the Rat Portage boys as Johnson and Riley are the best double crew in Winnipeg. The third heat of the lapstreak race

The Champion Mine.

Last week we made mention of an exceptionally rich strike at the Champion niine. Ther vein on one of the drifts at the 135 foot level has widened out to about 15 feet and work has exposed an immense body of ore, which all through maintains the big values of the Champion and in places exceeds. anything heretofore discovered on the property. In fact it seems like large collection of specimens.

Ever since the Champion was taken over by the Bullion company it has been worked in a thoroughly systematic manuer under the direction of Chas. Brent. M.E., and the results have been more than satisfactory throughout the development. They had no anticipation, however, of incountering such a body of ore as has recently been brought to light. It is the intention of the company to commence shipping ore to the Keewatin reduction works about Sept. I, and arrangements have been made to that end. They will ship about 100 tons or feelings. The whole affair was more weekly.

Sparing of Her Remedy,

There is at least one weman in Kenwood who believes thoroughly in the efficiency of prayer. About a year ago her husband engaged in a business venture that fooked rather uncertain. But his wife had strong faith that it would min out well.

"tib ahead, John," slysgald, "and let us pur our trust in the Lord. I pray every hight that we may have no reason to corret the risk we are taking."

The affair seemed to turn out pretty well right from the start. Handsome dividends were paid all through the summer and during the winter, and great joy was in the home of this man and the sharer of his fortunes.

But there came a turn about a month ago. The business ceased to pay, and since then the losses have been increasing every day. A Fumous London Tayern.

The Mermaid was the name of a fanious Lendon javern frequented by noted Fterary men and actors during the reign of Queen Elizabeth. All the wit and talent of the time assembled there for gonvivial enjoyment. Authors have made it the scene of great m nd combats between such men as Shakespeare, Ben Jonson, Beaumont, Fletcher, Selden, Carew, Donne and others of reverential memory. It was the gathering place of the celebrated Mernaid glub, Co-origin of which is ascribed to Sir Walter Raleigh, 'The Merikald Savern was located in Bread street and was land'ly reached from: three thoroughtures, so that it has been often referred to in various ways. The Mermaid in Brend street, the Mermaid in Friday, street and the Mermaid in Cheap street were, however, all one and the same. It was the nearest to Bread street. The Mermaid was destroyed in the great London fire. There were other Mermaid taverns, one in Cheapside and another in Cornhill, but they had no such associations as clung to that of Bread street.

Tolstoi's Sense of Honor.

At one music party at Count Telstoi's a lady's singing displeased the count's | www. boys, and they adjourned to another room and made a noise. Their father lost patience and went after them, and a characteristic admonition ensued.

"Are you making a noise on purpose?" he asked.

After some besitation came an answer in the affirmative, "Y-y-yes," "Does not her singing please you?"

"Well, no. Why does she howl?" declared one of the boys, with vexation. "So you wish to protest against her singing?" asked Lyeff Nikolaevitch in a \$

serious tone.

"Then go out and say so or stand in the moddle of the room and tell every one present. That would be rude, but unright and honest But you have got | together and are opening like grasshoppers in a corner. I will not endure such protests "-Newcastle (England) Chronicle.

dropped on the sand, supped his arm around her waist and was giving her an old fashioned hug.

That the young woman took kindly to this embrace was quickly proved. for her head dropped against Ned Moore's shoulder, and a little handstroked his yellow and black coatsleeve. Moreover, the young woman murmured loud enough to be heard above the rush of the surf:

"Yes, darling!"

Ned Moore could plainly hear his heart beating, but he couldn't, to savehis life, get a grip on words. So he hugged the girl again. She seemed to read the right meaning in his silence, however, for she whispered:

"Such a heavenly night, isn't it, sweetheart?"

"I must say something," thought Ned Moore, and he was on the point of speaking when another man spoke for

"Well, I'm darned!"

And when Ned Moore looked up he saw facing him a man about his own size and build-a man whose face was livid with passion. The intruder didn't, give Ned long to think, however, for he burst out:

"What is this, Nell? What in thun!

He got no further, for, with a shriek, the young woman spring away from Ned Moore. When she faced him, she looked an enraged tigress. She was too angry for words.

"Answer me, Nell-answer!"

"Oh, it's all a mistake-a dreadful mistake!" cried the young woman. "Mistake? Nonsense!"

"No, truth, Jack," and the pretty, tear stained face was lifted toward the angry man. "I was sitting here," she, ran on, her voice tremulous, "waiting for you, and I had just dreamed my way back to last summer and was, oh, so happy, living over those dear, sweet days, when somebody, so like you, passed between me and the sea, fitting in ob, so true, with my sweet dream! Then an arm stole around me-the same old yellow and black coat sleeve,

Two Widows and a Salted Mine.

A good story is told about how two prospectors had salted a mine in the Galena district in order to rob a couple of rich widows, which resulted in the aforesaid widows becoming much wealthier.

The prospectors had spent their last cour in digging a hole in the ground to the extent of 60 feet without striking anything but yellow clay. But one of them knew of two rich widows who were just spoiling to have their money sunk in a mine. Accordingly they spent two nights in salting their mine. They hadn't sufficient money to buy some paying dirt, but they stole this from a neighboring mine and hauled a lot of it over to dump into their mine. When several tons of this "paying dirt" had accumulated in the bottom of their mine, the widows were sent for, and while one was talking about the increasing value of the district the other was dumping out all kinds of lead and zinc ore before their astonished eyes.

The widows bought a half interest in that hole in the ground for \$1,500. The next day there was no more ore in the shaft, and the fellows declared they would dig no longer. Then the widows bought the other half interest at a total cost of \$2,000, and the men hiked out for Missouri, laughing in their siceves. But the women, blindly believing that there must be more ore, continued with the digging and at a depth of ten adilitional feet struck the tichest vein if the whole belt, realizing \$75,000 in ess than one year's time.-Kansas City Johrnal.

Able to Hear It.

It is well known that Joseph Medill of the Chicago Tribune was somewhat deaf, although his ability at times to hear what was said in an ordinary tone of voice was frequently remarked

It is related of him that he dromed into the business department of the ofhee one day to make an inquiry about something that had occurred to him. and a young man who had been in his employ only a few mouths undertook in a loud tone of voice to enlighten him. "What did you say?" asked Mr. Medill, putting his hand to his ear.

The young man repeated the question en a still lödder voice.

"I can't Lear you." said the editor.

"Oh, chase yourself around the block, "I am not an old granny," said Mr.

Medill, turning away, "and I shall not chase myself around the block."

The fresh young man made immediate arrangements to say goodby to his job, but the great editor probably thought that the lesson he had received was sufficient and did not disturb him.

A Story of Culberson,

In the Fifty first congress, whose Speaker Reed first gained the title of "czar" by his arbitrary decisions, Judga Culberson was one of his stronges supporters, although he gave the speak er no public indersement, for political reasons. One afternoon while the Ixin ocrats were in a terrible tumult over decision of the speaker and the proceedings of the house were very uca rlot a thunderstorm came up. When the confusion was highest, a blinding flash of lightning and a terrible cras of nature's artillery startled every sou on the floor and caused a profound letter. The Roar or Battle.

The roar of the navy's four point seven's, their crash, their rush as they passed, the shrill whine of the shrapnel, the barking of the howitzers and the mechanical, regular rattle of the quick firing Maxims, which sounded like the clicking of many mowing machines on a hot summer's day, tore the air with such hideous noises that one's skull ached from the concussion, and one could only be heard by shouting. But more impressive by far than this hot chorus of mighty thunder and petty hammering was the roar of the wind which was driven down into the valley beneath and which swept, up again in enormous waves of sound. It roared like a great hurricane at sea: The illusion was so complete that you expected, by looking down, to see the Tugela lashing at her banks, tossing the spray hundreds of feet in air and battling with her sides of rock. It was like the roar of Ningara in a gale, and yet when you did look below not a leaf was stirring, and the Tugela was slipping forward, flat and sluggish and in peace.-From "With Buller's Column." by Richard Harding Davis, in Scrib-

It is often asserted that samples of wheat from the same crop as that which Joseph stored in Pharach's granaries has been taken from temmery wrappings and, when planted, has grown. This is very likely erroacous, as the Arabs have a habit of selling to tourists samples of grain which have in all likelihood come from the nearest field instead of from the incient tombs. Indeed in many instances this "munimy grain" has been corn, and, as corn was not known until it was brought from America, the fraud is apparent.

Cards on the Cars,

"Cards are not played as much on the cars as they used to be," said the commercial traveler. "A few years ago it was a common sight to see three or four games, whist, euclire, poker or seven up, going on in a car, and wherever four or five drummers were gathered together there was sure to be a lively game of draw in progress. Suburban trains were turned into whist clubs, and morning and night the commuters were engaged in a rubber,

"But all this has been changed. Nowadays it is the hardest thing in the world to get up a game of any kind in a train. Ask a stranger if he would like to take a hand at whist or euchre, and he will freeze you with a suspicious look. And, what is worse, he is entirely justified in his suspicions.

Several gentlemen from eastern Onaris have recently passed through Rat Portaga en route to the Rainy River district to size up the country from a farming standpoint. They rep-resent a number of intending settlers, resent a number of intenums secures, and if their report is satisfactory in lot of laid will be taken up. The number of settlers going into the river district. as not been as large this year as was anticipated. This was partly due to the good times in the east and the consequent demand for labor, but the prospects for the coming year are very promising.

Rev. A. Andrews, of Winnipeg, preached two excellent sermons in Zion-church last Sunday, Mr. Andrews old parishioners were delight. ed to again have the privilege of hearnor him.

Mr. Guy Warrom, and Misses Dun-can, and Horn were passengers from Shoal lake last Friday.

Quite a number of the stalwarts of the Winnipeg police force were among he visitors yesterday.

Tipe Minen believes that the people of Rat Portage should patronize the home industries. We would have given that chamber of wonders. Main St. yesterday an advance notice hold we known the extent of its clain. to a "home" indistry,
